John it has been over a year. I still think of you daily. I miss you and your wonderful smile. I never had the chance to thank you for being my friend for all of these 20+ years. My son was so happy to meet you and to watch you play on stage. You now are with the angels watching over all of us. You have no idea how much all of us miss you. To you family thank you and I know you miss him terrible. Remember he was loved by so many, Heather

It is very sad to that I am writing this about my friend. John and I had re-connected through Facebook late last year after 20+ years of no contact. When we spoke there was still that familiarity between us and he still had that certain joy in his tone where you could tell he was smiling as he spoke to you. He told me about his band and I was trying to get down to Palm Coast to see him play, and he actually sent me a message a couple of weeks ago to let me know they were playing down there again but it didn't happen. I am truly sad that I missed his performance. John was one of my best childhood friends. I can remember the days of us riding bikes, through trails, jumping ramps, going to Vann Park for baseball, to go see other friends, going to summer camp, playing wiffle ball in the street or my backyard. I remember how we discovered music together especially the Beatles, we learned to play guitar together when we were 12 or 13. We used to see who could figure out a song first and play it to the other, I still remember when we made cardboard cutout guitars and singing Beatle songs with Kathy's tape recorder and Kathy yelling at us to keep it down:) It is hard to lose someone that has had an impact to my life the way John did. I am eternally thankful for the time that we shared together the friendship that we had and the memories that I will always have and cherish forever. With Sincerest Condolenses, Waine Cardinal
