Judi welcomed me into her home and family with open arms, showing me a love and acceptance that went beyond any biological ties. Her open-hearted spirit made me feel truly valued and accepted as part of her world. Judi cherished her extended family deeply, holding us all together with her centering force. Judi also shared treasured memories of my father with me, allowing me glimpses into his life and helping me feel closer to him. It was my privilege and honor to have known her, and her love will forever leave a lasting imprint on my heart. I wish so much that I could have had more time with you, Judi. Thank you for your kindness, love, and presence in my life. You will be deeply missed.

Mom is what I called her; as Tina's friend, my high school years were mostly spent at her and grandma Grace's house. I learned many things from her but the memory of her I visualize most is the way she carried herself. Mom was a strong woman. She had to be, but I saw right thru her. She was loving and a very kind-giving soul. I remember her as a woman of discipline and structure. MOM impacted my life in a tremendous way. My heart smiles as thoughts of her run through my mind and I Thank God and will always cherish the time we shared.

I met Mama Judi about 10yrs ago when I was her grandson's in-home therapist. Tina and I became such good friends that she wanted me to call her Mama Judi. She was such a loving and funny woman. I loved it when she would come to visit. She had the warmest hugs and would always tell me thank you for being there for Tina and Joe. She will truly be missed. Rest in Power. ❤️ Love April

Mama Malloy, You were truly one of the kindest women I've ever met. Seeing all the memories shared by others really shows just how special you were. You always supported Tina and me, even through our shenanigans—no matter how much we might've made you roll your eyes at times. :) This world has lost an incredible woman far too soon, and you will be deeply missed. Watch over our girl T and my bud Joey. Rest easy! Love, MamaDe
